

Discovering Science: The Laboratory of Life

This course will provide training to early care and education providers on how to incorporate science concepts into their programs. The course will walk providers through strategies on how adults can support children's experiences with science. Science will be explored through hands on activities. Additionally, participants will learn how to incorporate science materials in their learning environment specific to the Environment Rating Scale.

Learning Objectives

- Explore science concepts.
- Experience science in the learning environment and through play.
- Discover how the adult can support children's explorations and experiences with science.
