

Strengthening Families in Early Care and Education with Mandated Reporter

The strengthening Families Initiative is a strength-based approach to preventing child abuse and neglect. Strengthening Families comes from the Center for the Study of Social Policy and looks at the evidence to find out what factors really reduce child abuse and neglect. This training makes connections between the factors that prevent child abuse and neglect and the strategies that quality early childhood programs can use to build up and support families.

Online Course

Each participant needs their own email address for course access.

Learning Objectives

- Learn about the five protective factors that strengthen family function.
- Identify three next steps to build protective factors in early care and education settings.
- Understand how to access and use Strengthening Families resources.
- Complete the Mandated Reporter Training.
